VOLUME 22-NO. 6

CANAL POINT, PALM BEACH COUNTY, FLORIDA, FRIDAY, APRIL 20, 1945

Recent Operations

I was in Talahassee over the week end attending to business with tiff chairman of state road department—Eight Bayless—and the state highway engineer—I. Ham Dowling, you said it was a pleasure to visit them in an off-ficial capacity—that of county commissioner from the Glades area of Palm Beach county. Their reception was a royal one and my only worry was that maybe I was taking too much of their time, for, after all, they are busy men anahave many, many interviews each day.

I visited many offices in the capitol. The governor evidently didn't learn of my visit for I didn't receive an invitation from him to report on things as they are in the southern part of the state. Maybe, next time.

The legislature was an interest-ing spot for an ex-legislator. There are many new faces with 45 out of the 55 members practicing at-torneys. Your local representa-tion of the control of the control present at every roll call and is fast becoming popular among the members of the fonces. Your other representative—John E. Bollinger from West Palim Beach—is a from West Palim Beach—is a cran with one session under his is both houses. John & John Scholler both houses. John * doing ng-up job. With that team e house I feel sure that Pal ach county's interests will all taken care of.

I remember the 1937 session—a legislator couldn't walk down the capitol halls for the mob of people seeking jobs. It was quite odifferent this time. At times I couldn't find anyone with whom to enjoy a glass of milk at the American Legion stand in the hallway. Visitors were just that scarce.

I could write columns on my visit to the red clay hills of Leon but will at least wait until next week when I will write a few more highlights of that busy spot.

Governor Asks Calm Peace Day

A proclamation urging all liquor stores and places dispensing adstress and places dispensing adstress and places dispensing adstress and advantage of the end of hostillites in Europe has been made of the end of hostillites in Europe has been issued by GW.

Asking for an orderly observance of the day, the governor declared: 'It is highly desirable that our victory against National Certinary be celebrated in an adventure of the control of the second of the secon

A NATION'S LEGACY

A NATION'S LEGACY

In the early afternoon of a Georgia
spring day the heart of the Great Humaniturian was stilled. Franklin Delano Roosevelt, the thirty second President of the
United States was felled in the
"Little White-House," at Warn Spring, and
Immediately the nation, the civilized
world bowed in mourning, stunned as the
realization off the great tragedy struck
home to the great and humble, the rich and
moor.

Door.

Never before perhaps in the history of this nation have so many been so obviously affected by the death of a great leader. With few exceptions, eyen outstanding members of the opposite political faith were openly stricken with grief for the loss of the man they had assailed so vigorously in life.

MirrApianos

The unique-styling built into our fine Mirr-Apianos preserves their full musical tones in a beautiful, grateful setting. The eye see a small piano, but the ear hears that sonorous musical tone that is possible only with adequate string length and generous sounding board area.

The MirrApiano involves no compromise with tone or touch. The mirrored tunct housing the pln plank and tuning pin assembly becomes a traditional room expanding wall decoration, rather than a part of the piano.

We now have a limited number of these fine pianos available for immediate delivery, also some nice thoroughly reconditioned "shipped in" uprights. All fully guaranteed. Terms if desired.

Brubaker Music Co.

West Palm Beach, Fla.

But Franklin Delano Roosevelt, even though-he died before he could witness the victory and the peace, which he was so instrumental in planning and carrying forward to its inevitable result, left this nation a great legacy.

It is not only a legacy of courage and vision but it extends in its workings deep into the most remote sections of the nation. into the most remote sections of the nation. He was the faster of speial referms which have done much to improve the lot of the humble man. All of them are too well known to require listing here. But even Republicans have approved them so the Republicans have approved them so the likelihood exists that these reforms will be continued despite the murmurings of the small, but vocal minority.

America and the World, too, are fortunate that Herry S. Truman will occupy the White House. He has made it definitely white House, the has made it definitely white House, the has made it definitely work and the will carry out the ideals and plans of the man who has won immortal renown and has thus taken his place in history alongside of Washington and Linguistics.

coln.

Harry S. Truman has said that he will go
forward. America must go forward with
him. We must answer his plea for unity in
War and in Peace.

to Serve Essential Travel

REACHING out across the great peninsular state Florida Motor Line's netw bus routes is bringing an indispensible service to this great and growing southern-most state of the nation.

And this is but a small segment of the picture, for Florida Motor Lines is closely coordinated with travel over hundreds of thousands of miles of addi-tional motes bus line routes reaching to every nock and corner of America.

From the smallest cross-road community to the splendid cities and industrial and shipping centers of Florida-Florida Motor Lines forms an Important connecting link . . . bringing together men and women of all occupations and cer

Today Florida Motor Lines, and the war-busy state it serves, is busy at the job of helping win an early and final Victory. But when the day of peace arrives Florida Motor Lines will be ready to provide the luxury and convenience of super-buses to carry you, swiftly and pleasantly, in any direction you

A Gase IN POINT

The Seaboard Railway has claimed for itself the distinction of being a builder wherever we serve. Our friends—patrons of the Railway—have been gracious in confirming that claim.

confirming that claim.

A case in point is the Seaboard's contribution to recent developments in the pulp and paper industry of the South. For many years, this has been a major project, with our ladustrial Department. As in bac, as the 1920's, detailed surveys were stade of the best locations for pulp 100 paper mills, and the cooperation of the local people was enlisted in our efforts to develop the pulp and paper

resources of the territory. These efforts have been abundantly rewarded. Several large mills have been located in our territory in recent years and others will no doubt be built in the future.

Many other new enterprises, industrial and agricultural, have been brought in as a result of the Seaboard's cooperation with local communities. The Railway is continuously on the alert for every opportunity to aid in improving the economic lot of its territory.

And so we say with justifiable pride:
"A builder wherever we serve."

NEW FLORIDA BOOSTERS

The Florida East Coast Railway has recently acquired 100 new freight and freight express cars. These are of modern all-steel construction. Fifty of them have special trucks for operation on Aighspeed passenger and express trains.

In addition to moving goods these cars will also serve as Florida boosters. At one end they carry the name, "Florida East Coast," in large letters. On the other end appears the slogan. "Speedway to America's Playground." Many of them are now touring various sections of the country, reminding the many people who will see them of the East Coast of Florida and its attractions.

This new equipment will enable the Florida East Coast Railway to provide improved local and through freight and express service. While purchased primarily to meet the requirements of war traffic, these Florida boosters will also be ready to better serve the cargoes of
